Information Disclosure Statement

The information disclosure statement (IDS) submitted on 08/26/03 is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

Drawings

New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because the application has been allowed. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Claims 3-27 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance: the prior arts to DataCore and Hodges et al. fail to explicitly disclose the steps of receiving a request for performing a data operation on a storage device, the request using a disk operation format; attempting to read a data block from a local cache corresponding to the storage device if the request is to read data from the storage device; responsive to not being able to read the data block from the local cache, requesting and receiving the data block from the storage device over the network using a network communications format; and writing the data block to the local cache.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
